December 13-1:00pm-5pm
December 14-1:00pm-5pm
December 18-1:00pm-5pm
December 19-1:00pm-5pm
December 20-1:00pm-5pm
December 21-1:00pm-5pm
Room B-2301

Kishwaukee College is offering American Heart Association CPR courses specifically for Healthcare Providers. Each class costs \$55. The required textbook for each class is available at the Kishwaukee College Bookstore and is not included in the cost of the class. Participants should wear comfortable clothing to class. To receive certification, no part of the class can be missed.

CPR for the Healthcare Provider is designed for certification, as well as recertification, to cover the role of healthcare providers who respond to cardiovascular and respiratory emergencies. Proper CPR skills, the use of an automated external defibrillator (AED), relieving foreign body airway obstructions, and using a bag mask will be presented.
