

Beekeeping 101

*Spring 2018
Session*

February 3, 2018
Saturday
9:00am-5:00pm
Kishwaukee
College
Room-C1203

Cost – \$59

Early spring is the time to begin keeping honeybees. This course is for interested citizens and beginners who wish to join the bees' world and become a beekeeper. Students will learn the basics of handling bees and harvesting hive products. Honey bee biology, hive basics, installing bees, and honeybee management will be discussed.
