Enjoy eBooks and digital audiobooks from the Kishwaukee College Library with the new **Axis 360** app!  
The **Axis 360** app links your device to your library and allows you to discover, download and read digital content on the go.

### 1. Download the Axis360 app

Search for "Axis 360" in the App Store.

### 2. One-time Library Account Setup

You'll need to connect the app to Kishwaukee College's Axis360 eBook collection. After the introductory screens, search for Kishwaukee, and then choose **Kishwaukee College** as your library.

Enter your **Library ID** and **PIN**. Your login information will be saved on your device.

**Library ID** = "kc" + your Kishwaukee College ID number (found at the top of your class schedule)  
Example: kc1234567 (include any zeroes)

**PIN** = your last name, either all lowercase or first letter capitalized  
Example: anderson OR Anderson

Tap Login.

On the next screen, set up your personal account:

- Re-enter your **Library ID** (example: kc1234567)
- Re-enter your **PIN** (last name) and confirm
- Enter your **full name**
- Enter an **email address** (for students and employees, Kish email is recommended)
- Choose a **security question** and answer, and Login

### 3. Find a Book to Read

eBook (e) or eAudio (n) icons display at the corner of each book cover.

- To **Search** for books by title, author, or keyword, tap the magnifying glass icon at the upper right.
- Tap **Browse** to browse books by subject.
- For more details about any book, just tap the cover image.

**What if the book I want is checked out?**

- If someone else has the book checked out, the **e** or **n** symbol in the top right corner will be grayed out.
- When you tap on the book cover, the green button will say **"Place On Hold."** Tap this button to reserve a copy; you'll receive an email when the book is available to check out.

**Tip: See only books that are available to check out**

From your search results screen, tap **Filter**.

On the next screen, tap **Available Now**, and then **Apply**.

Now you will only see books that are currently available to check out. You can always tap **Filter** again to remove the **Available Now** feature.

**4. Check out books**

- Tap the cover of a book you want to read.
- Tap Checkout.
- The book will begin downloading.
- Once it's downloaded, you're ready to read!
